

TSD Feedback 信息收集表單

1. Customer Environment

Hardware environment:

- M/B: Asus B85M-E
- PCB (MB Revision): REV 1.02
- 80 level P/N: 90MBOF60-M0EAY5
- SN: D8M0AB132189
- CPU: irrelevant
- DRAM: irrelevant
- HDD : Samsung SSD 840 EVO 250GB
- VGA: irrelevant
- PSU: irrelevant
- Audio: irrelevant
- LAN: irrelevant

Software and BIOS environment:

- BIOS: 0603
- VGA driver Version:
- Chipset driver Version:
- Audio driver Version:
- Network driver Version:
- O.S.:

Other information:

-

2. Problem Description(請寫明現象複製率)

Where do I configure the required password within the UEFI BIOS to enable SSD hardware-integrated data encryption (AES 256-bit)? At least it is not: Main > Security > User Password

3. Duplicate problem procedure in customer side

4. TSD Remark:
